

Surgery Department - SAVING HUMAN LIVES

Department Director:
Prof. Shlomo Kyzer

Head Nurse:
Nitza Bashar i

Laniado Hospital's Surgery Department, which includes 34 beds, encompasses the various departments and units that perform general and trauma surgical procedures. Over the years, it has treated hundreds of sick and injured individuals in the Netanya area, including hundreds of victims of the various terrorist attacks in the region during the Second Intifada.

All types of surgery is performed at the Department, including the following:

Denture and other diseases that require surgical intervention, including tumors
of the head and neck, thyroid, parathyroid, and adrenal glands, and appropriate
referrals to the appropriate specialists and appropriate follow-up care
2000 (except for doctors' rounds)
